## CROPS OF GOA:

Among the field crops, autumn rice and rabi season rice is cultivated, besides some food crops in rabi & kharif seasons. The details of average area, production and productivity (Average of 2009-10 to 13-14) of crops cultivated in Goa are as under:

Area: Lakh Ha, Production: Lakh Tonnes and Productivity: Kgs / Ha

| **Crop/ Season** | **Average area (09-10 to 13-14)** | **Average Production (09-10 to 13-14)** | **Average yield (09-10 to 13-14)** |
|---|---|---|---|
| Autumn Rice | 0.305 | 0.743 | 2434 |
| **Rabi season** | | | |
| Rice | 0.154 | 0.430 | 2794 |
| Other pulses | 0.084 | 0.083 | 988 |
| **Total Rabi** | **0.238** | **0.514** | **2154** |
| **Kharif Season** | | | |
| Maize | 0.001 | 0.001 | 1200 |
| Ragi | 0.001 | 0.001 | 667 |
| Coarse cereals | 0.001 | 0.002 | 1429 |
| Other pulses | 0.002 | 0.002 | 667 |
| **Total kharif** | **0.005** | **0.006** | **1077** |
| **Total (Kh+ Rabi +Autumn)** | **0.549** | **1.262** | **2299** |

For betterment of Agriculture in Goa state, the schemes of i) Rashtriya Krishi Vikas Yojana, ii) National Food Security Mission, iii) National Mission on Sustainable Agriculture: Soil health Management & Soil Health Card, iv) National Horticulture Mission (NHM), and v) Pradhan Mantri Krishi Sinchaee Yojana: PMKSY-Micro Irrigation - Other Intervention & PMKSY- Extension were sanctioned during 2016-17. However, the scheme of National Food Security Mission: Pulses could not be implemented by the state. During 2017-18, the above all schemes are under implementation in the state. The National Mission on Oilseeds and Oil palm (NMOOP) has not been approved yet for implementation during 2017-18.
